

Monday	Tuesday	Wednesday	Thursday	Friday
<p>Read a story every day. Encourage your child to talk about what they can see in the pictures, and to talk about what the characters are doing.</p>				
<p>Encourage your child to draw a picture and write their name every day.</p>				
<p>Do some exercise. Put on some of your favourite music, and dance along. Maybe you could make up a routine, either by yourself, or with a member of our family. Your dance could include shaking, bouncing, twirling and swaying.</p>				
<p><b>R.E.</b> Remember to say your daily prayer:          'At the end of the day,          I've come to say, Thank you God for your love today.          I tried to be good,          Because I know that I should,          That's my prayer at the end of the day.'</p> <p>We should remember that God made the world, and He wants us to look after the world. One way of looking after people is to help them with jobs. Ask the adults in your house if there is a job you could help them with. Maybe you could help to wash up, or set the table. Maybe you could help to put the washing in the washing machine. Everyone will be so happy if you offer to help.</p>				
<p><b>Phonics</b></p> 				

<p><b>Maths:</b> Let's practise counting backwards. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0. Practise a few times, because it is quite tricky. Can you do it in a loud/ quiet/ high/ low voice?</p> <p>We are going to take one away. Can you draw 5 ducks, and cut them out? You can use them to help you take away. Put your ducks on the floor, and ask an adult to help you sing 5 Little Ducks. Every time 1 little duck goes, count how many are left, and show this number on your fingers. Can you say the number sentence? 5 take away 1 makes 4. Continue in this way until there are zero. Remember to say the number sentence each time.</p> <p>Lyrics to 5 Little Ducks: '5 little ducks went swimming one day, Over the hill and far away, Mummy duck said, 'quack, quack, quack, quack',</p>	<p>Let's practise counting backwards. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0. Practise a few times, because it is quite tricky. Can you do it in a loud/ quiet/ high/ low voice?</p> <p>Do you still have your ducks? Can you remember the 5 Little Ducks song? Every time 1 little duck goes, count how many are left, and show this number on your fingers. Can you say the number sentence yourself? That's right. 5 take away 1 makes 4. Continue in this way until there are zero. Remember to say the number sentence each time. See if you can say it by yourself, if not, a member of your family will help you.</p>	<p>Let's practise counting backwards. Pretend to get into your spaceship, and count down to blast off. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0. Blast off!! Off you go in your spaceship.</p> <p>Can you draw 5 monkeys, and cut them out? You can use them to help you take away. Put your monkeys on your bed. Are they jumping? Ask an adult to help you sing 5 Little Monkeys. Every time 1 little monkey goes, count how many are left, and show this number on your fingers. Can you say the number sentence by yourself? That's right, 5 take away 1 makes 4. Continue in this way until there are zero. Remember to say the number sentence each time.</p> <p>Lyrics to 5 Little Monkeys: '5 little monkeys jumping on the bed,</p>	<p>Let's practise counting backwards. Pretend to get into your spaceship, and count down to blast off. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0. Blast off!! Off you go in your spaceship.</p> <p>Do you still have your monkeys? Can you remember the 5 Little Monkeys song? Every time 1 little monkey falls out of bed, count how many are left, and show this number on your fingers. Can you say the number sentence yourself? That's right. 5 take away 1 makes 4. Continue in this way until there are zero. Remember to say the number sentence each time. See if you can say it by yourself, if not, a member of your family will help you.</p>	<p>Let's practise counting backwards. Pretend to get into your spaceship, and count down to blast off. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0. Blast off!! Off you go in your spaceship.</p> <p>Do you have any bottles at home? Maybe empty water bottles? You could start with 7. Can you make a line of them on the floor, or the table? Let's sing 7 Green Bottles. Every time a bottle gets knocked down, count how many are left. Can you say the number sentence yourself? Continue in this way until there are zero. Remember to say the number sentence each time. See if you can say it by yourself, if not, a member of your family will help you.</p> <p>Words to 7 Green Bottles: '7 green bottles, standing on the wall,</p>
--	--	--	--	--

<p>And only 4 little ducks came back.... 4 little ducks went swimming one day.....'etc.</p>		<p>1 fell off and bumped his head, Mummy phoned the doctor, and the doctor said, 'No more monkeys jumping on the bed!!' 4 little monkeys.....etc.</p>		<p>'7 green bottles, standing on the wall, But if 1 green bottle, should accidently fall, There'll be 6 green bottles, standing on the wall.' Etc.</p>
<p>Watch Can't You Sleep Little Bear? by Martin Waddell, read by Kevin Whately. It is an animated film that is easy to find on YouTube. What is little bear's problem at the beginning of the story? Why can't little bear sleep? What does big bear do to try and help him? Where does big bear take little bear? What do they see? Are you scared of anything? Draw a picture of your favourite part of the story.</p> <p>Don't forget to write your name on your work.</p>	<p>Listen again to Can't You sleep Little Bear?</p> <p>The bear cave is very cosy and comfortable. Have you got a bear? Could you make a cosy and comfortable home for it? Maybe you could use some of the furniture in your house, or some big boxes. Make sure bear has some cushions and a blanket to keep it warm. What else does your cosy place need?</p> <p>Once you have built your cosy place, sit with your bear. You could ask someone in your family to read you and bear a story, or you could read bear one of your favourite stories. You could do</p>	<p>Big bear brought little bear some lanterns to help him sleep. We can make our own lantern:</p> <ol style="list-style-type: none"> <li>1. Fold a piece of paper in half, and draw lines along it, stopping about 4 cm from the edge.</li> </ol>  <ol style="list-style-type: none"> <li>2. Cut along the lines.</li> <li>3. Curve your paper around into a tube, and secure the long ends with masking tape, or sellotape.</li> </ol>	<p>Singing time:</p> 	<p>Let's investigate:</p> <p>Do you remember that there were lots of lights in our story this week? There was the light from the lanterns, and the light from the moon.</p> <p>Have you got a torch you can use? Find a lot of different materials in your house, such as tissue paper, leaves, plastic bags, cardboard. Search for materials of different thickness and colours.</p> <p>Now, we are ready to test the materials. Try and shine the torch through them. Can you see the light on the other side, or not?</p>

some singing together as well.  
Have fun.

4. Cut another strip of paper, and attach as a handle.

Your finished lantern should look a bit like this:

If you have different coloured paper, you could make lots of lanterns and hang them in your room.

Sort the materials into piles. One pile of material that light shines through.  
One pile of material that light does not shine through.
