

Hello Reception,

These homework activities are things you can do at home to support your learning. They are quick activities, which should only take between 10 and 15 minutes each. Have fun with them.

Homework week beginning 21st March 2022

Listen to a bedtime story every night. Remember to look at the pictures and talk about them.  
Could you tell your own story about a penguin?  
Where would the story be set? What exciting things happen in the story? How does the story end?  
Tell an adult your story, so that they can write it down for you. Don't forget to illustrate your story!

Can you find any numbers in your home, or in the streets on the way to school? Can you find all of the numbers from 0-10? What about even higher numbers?

We have been thinking of different ways to look after the planet over the last few weeks. What could you do to help look after our environment? Maybe you could help with the recycling, or take a bag with you when you next go shopping. Maybe you could remember to turn the lights off when you leave your bedroom? Talk to the grown-ups in your house about ways they help to look after the environment.
