

Hello Reception,

These homework activities are things you can do at home to support your learning. They are quick activities, which should only take between 10 and 15 minutes each. Have fun with them.

Homework week beginning 28th March 2022

Listen to a bedtime story every night. Remember to look at the pictures and talk about them.

We are reading about the life cycle of a chicken.

Hens lay eggs. Can you think of any other creatures that lay eggs? Maybe you could draw a picture of some of the creatures you have thought of, and label the picture with their names. Use your sounds to help you.

Our number of the week is 8.

Can you collect 8 buttons, or lids, or other small objects. How many different arrangements can you make with them? Can you describe the arrangements you have made, eg, "5 and 3 makes 8"

We have been thinking about how chicks grow up into chickens. Think about when you were a baby. What can you do now, that you couldn't do when you were a baby? For example, 'When I was a baby, I used to cry and gurgle. Now I am really good at talking to my friends.'
