

As part of our commitment to improve and promote reading, we have arranged for all children within the school to have access to Myon – an online library of more than 7,000 enhanced digital texts - during the summer break.

The majority of children from Year 2 upwards currently use our Accelerated Reader Scheme for our reading programme. Myon has been developed by the same company. However, instead of having physical books it allows children to access texts online. Children can choose books according to their age, interests, year group or ZPD if they have one (the latter is applicable for children who use Accelerated Reader only).

Myon allows children to read texts, have the texts read to them, is available 24/7, has online dictionaries and matches students with the right book at the right reading level, based on their interests. There is even the opportunity with some books to read them in Spanish or Welsh!

To access the system, children will need a device such as a computer, Kindle or phone and login to the Myon site <https://www.myon.co.uk/login/> from here they simply need to enter the login details as shown below:

Books are a uniquely portable magic – and now with Myon there's no excuse to not read!

So log in, explore and have fun and remember:

"The more that you read, the more things you will know. The more that you learn, the more places you'll go."- Dr. Seuss.
